FOR IMMEDIATE RELEASE

BON LEVELING PINS PROVIDE A VISUAL GUIDE FOR SELF-LEVELING FLOOR INSTALLATION

(GIBSONIA, PA, USA) – Bon Leveling Pins provide a visual guide when pouring self-leveling and cementitious flooring materials. Accurate and consistent depth pours are easier to achieve with the pins. Simply cut the Leveling Pins to the desired heights and apply the self-adhesive pins to the substrate. The high strength adhesive bottoms and flexible vinyl material of the pins guarantees that the pins are held in position during the pour.

Made from flexible vinyl. Graduated in inches on one side and millimeters on the other to measure up to 2 ½” or 65 mm. Bon Level Pins, part # 82-289 are available in package of 50.

About Bon Tool Co:
